

Customer Price List

Thanks for your interest in our products. On the following pages you'll find prices for most of the products listed in our catalogue. Those not listed are either lines that are special order only, or are unusually bulky and may attract extra freight charges. Please call us on 03 5729 5529 for details on these products. Also, with 2900 different products, there may be the odd one missing from the list. Please tell us, so we can add it quickly.

Garmin, Magellan, Thermarest & MSR Prices

For prices on these lines please see the Australian Catalogue, or call us for a quote.

GST

All prices include GST

Easy Ways to Pay!

Credit Card by phone: 03 5729 5529. Quote your card numbers and expiry date to our staff and your account will be debited on the day your parts are dispatched.

Credit Card by Email or Fax: info@touratech or 03 5729 5559. You can fax or email your card details, but this isn't 100% secure. Some of our customers send half the card numbers in one email or fax, and the other half in a second, providing protection if the message goes astray. Quote your card numbers and expiry date in the message and your account will be debited on the day your parts are dispatched.

Direct Transfer to Our Account: The funds can be deposited directly into our account, either via internet banking or over the counter at your bank. The details for this will be included on your invoice, which you will receive by either email or fax after your order has been placed. Please email or fax confirmation of payment - we can't send your parts until this has been done! Please ensure that the full amount for the order plus freight is deposited - the buyer is responsible for any bank charges incurred.

Deposits

We may ask for a non-refundable 30% deposit if we have to order unusual lines from the German factory.

Freight

All prices exclude freight from our warehouse in Victoria to your location. Unless you specify otherwise, we use e-post, which allows internet tracking, and reaches into the far corners of Australia, quickly, promptly, and at a reasonable freight rate. Also, once the goods have left the warehouse, they are out of our hands so please specify if you'd like insurance on your freight.

Stock & Back-Orders

While we keep good stocks of most lines, we can't hold all the items listed in the catalogue. Delivery from Germany takes around three weeks, and Australian delivery takes three-to-five days. Please allow for this when ordering. We can't be held responsible for any issues raised from late deliveries. Products not in stock here or in Germany will be automatically placed on back-order, unless you tell us otherwise.

Returns & Claims

Touratech's liability shall be limited to the repair or replacement, at its discretion, of any defective goods. This warranty shall not apply to normal wear, or to any product which has been improperly fitted or used for an application for which it wasn't intended. If you wish to return a product please notify us within seven days of delivery. Any returns must be accompanied by proof of purchase, and freight must be paid by the customer. Non-standard items will not be accepted for return, and a 15% handling charge will be levelled on returns. But, if it's our mistake, we'll fix it quickly for no charge.

Subject to Change
